

TALENTPROJEKT FUTURES

Talent Projekt Futures offers aspiring players the opportunity to experience life inside one of Europe's most unique soccer development environments. Participants will fully immerse with current Talent Projekt cohorts during an intensive 8-day trial program designed to showcase the daily demands and rewards of the European academy pathway.

Players will train alongside Talent Projekt athletes, compete in matches, attend German language classes, experience a live professional match, and take part in cultural events that highlight the beauty and tradition of Bavaria. This immersive experience gives families a firsthand look at the level of commitment, professionalism, and opportunity available within the Talent Projekt system.

Boys will stay on campus at the renowned Deutsches Fußball Internat, living the same structured academy lifestyle as full-time participants. Parents and guests will enjoy accommodations at a traditional Bavarian hotel located just a short walk from campus, creating the perfect balance of comfort, convenience, and authentic German culture.
